

The Industrial Accelerator Act is a welcome start - but it must go further to increase demand for green steel made in Europe.

READ OUR **4 CALLS**

**A clear definition of
“Made in Europe” for
steel, based on steel
melted and poured in
the EU and EEA**

EUROFER
THE EUROPEAN STEEL ASSOCIATION

2

**The application of both
low-carbon and European
origin criteria in the
Industrial Accelerator Act**

3

**A robust labelling
framework to support
lead markets**

44

**Affordable electricity
prices to further
enable steel
decarbonisation.**
